### **Author Appearance – David Dykstra**

“Lake Washington 130 Homes” is a guided waterfront tour of Lake Washington’s most magnificent mansions and estates creatively woven with current and historical information about the homes, owners, their businesses and their communities. These premiere mansions of the area include all the state’s billionaires and numerous entertainment and sports celebrities.

Dykstra will present a multimedia show, including the Evening Magazine segment of the book, on an 84" screen and will briefly discuss the recent interest, developments and controversy regarding the book. Most of the presentation half-hour will be answering questions. The sales growth and interest in the book are phenomenal and there are many fascinating stories.

### **9+ out of 10 reviews are 5 stars!**

From the Mercer Island Reporter: “. . . a truly unique book . . . a guide book to the lakeside mansions of the illustrious. Dykstra’s guide book is not just a ‘map to the stars’ for Lake Washington; it’s a document of history, geography and commercial industry.”
